## MAGNETIC DRILL PIPE ATTACHMENTS

### MOUNT DRILLS TO PIPES FOR SAFE OPERATION

Our magnetic drill pipe attachments are designed for mounting Steelmax drills on pipe, tubes, tanks and oval workpieces. These pipe attachments provide a flat, ferrous platform for the drill to adhere to and safely operate; allowing the user to easily drill holes in both ferrous and non-ferrous pipes.

The pivoting feet and tensioning chains make these pipe attachments very versatile and easy to adjust for various diameters. The DMP-250 and DMP-251 will work on pipe from 3" up to 9-1/2" diameter while the DMP-501 will work on 6" up to 19-1/2" diameter pipes.
